Grazia Stones

AI Smart Estimator — Complete MVP Proposal

Prepared for: Grazia Stones

Prepared by: RAGSPRO — raghav@ragspro.com

Date: August 2026

Overview

A single, complete build of the Grazia Stones AI Smart Estimator — real AI-powered wall visualization, live AR tile placement, instant cost estimation, and dealer/lead management, delivered as one unified package on both Android and iOS.

What's Included — Complete MVP Package

- ✓ **Real AI Wall Visualization**

AI-generated realistic preview of tiles/stones on a customer's actual wall

- ✓ **Real AR — Android + iPhone**

Live camera-based augmented reality placement, no markers needed

- ✓ **Automatic Wall Detection**

Detects wall surfaces automatically for accurate AR placement

- ✓ **Automatic Tile Fit**

Tiles auto-align and scale to the detected wall dimensions

- ✓ **Live Swipe Design Change**

Instantly switch between stone/tile designs while viewing the wall

- ✓ **AI Room Photo Mode**

Upload a room photo and visualize tile designs without live AR

- ✓ **Wall Measurement**

Height × width measurement directly from the camera

- ✓ **Tile Quantity Calculator**

Auto-calculates tile/box quantity needed from wall area

- ✓ **Cost Estimator**

Instant price estimate based on selected design and quantity

- ✓ **PDF BOQ / Quotation**

Auto-generated, shareable PDF quote for the customer

- ✓ **Admin Panel**

Manage products, pricing, designs, and catalogue centrally

- ✓ **Dealer Panel & Lead Management**

Dealers get their own login; leads are tracked and assigned

✓ **Payment Gateway & Online Ordering**

Accept payments and orders directly in-app

✓ **Play Store + App Store Deployment**

Full listing and submission on both platforms

✓ **30 Days Post-Launch Support**

Bug fixes and minor adjustments after go-live

AI API usage is based on actual consumption. For normal business usage, the monthly cost is generally low and is billed separately only when applicable — this keeps your development investment fixed and predictable.

Investment

TOTAL INVESTMENT

₹1,49,000

+ AI API usage (actual consumption only)

Milestone	Payment	Amount
Advance — on sign-off	40%	₹59,600
Midway — on AI/AR module demo	30%	₹44,700
On delivery — before store publish	30%	₹44,700
Total	100%	₹1,49,000

Timeline

Phase	Deliverable
Week 1-2	Backend setup, Admin Panel, product & catalogue management
Week 3-4	Real AI Visualization + Real AR (wall detection, auto tile fit)
Week 5	Wall measurement, tile calculator, cost estimator, PDF BOQ
Week 6	Testing, Play Store + App Store submission
Total	6 weeks from scope sign-off

Optional Future Enhancements

Available as a next phase once the core platform is live — kept separate to keep this build focused and on-budget.

→ Multi-brand / White-label platform	+ ₹45,000
Re-brandable app for dealers/franchises under their own name	
→ CAD / BIM integration for architects	+ ₹75,000
Import/export CAD & BIM files for architect workflows	
→ Custom AI model training	+ ₹95,000
Trained on Grazia's own catalogue for sharper, brand-specific results	
Everything included — Core MVP + all enhancements above	₹3,64,000
